

Caedmon Farmer

(303)-720-4380 | caed_farmer@mines.edu | Broomfield, CO | www.linkedin.com/in/caedmon-farmer/

SUMMARY

Electrical engineering junior with hands-on experience in robotics, software engineering, and CAD software. Well-versed in C++, Python, MATLAB, and GitHub for use in software engineering build pipelines. Certified SolidWorks Expert (CSWE), showing high proficiency in CAD.

EDUCATION

Colorado School of Mines

Bachelors of Science in Electrical Engineering

May 2028

3.9 GPA

RELEVANT EXPERIENCE

Mines Formula

Fall 2024 - Spring 2025

Software Engineer

Colorado School of Mines, Golden, CO

- Developed software used in car performance analytics for displaying real time dynamometer data
- Worked in collaboration with large teams and subunits to solve problems
- Effectively used Github and Slack to track team progress and needs

Eaglecrest STEM Projects

Fall 2023 - Spring 2024

Software Engineer

Eaglecrest High School, Aurora, CO

- Designed and created physics engine in C++ and SDL to simulate discrete motion and basic collision
- Applied college-level physics equations to ensure model accuracy
- Documented progress through GitHub version control and Google Sites daily logs

FIRST Robotics

Fall 2023 - Spring 2024

Team 3200 Programmer

Eaglecrest High School, Aurora, CO

- Programmed finite state machine interfaces for autonomous robot routines
 - Learned GitHub build pipeline fundamentals and applied effective version control
 - Created technical documentation in Markdown to onboard future team members
-

WORK EXPERIENCE

Freedom Street Social

August 2025 - Present

Delivery Driver

Arvada, CO

- Coordinated and tracked orders across multiple food vendors for efficient delivery
- Maintained accuracy and timeliness in customer delivery
- Assisting in front of house bussing and cleanliness to ensure hall presentation

Book and Brew

September 2024 - Present

Barista

Colorado School of Mines, Golden, CO

- Delivered high-quality service in a fast-paced café environment
 - Memorized and produced a wide range of custom beverages effectively
 - Ensurance of drink and coffee quality and consistency
-

SKILLS

Computer: SolidWorks (CSWE Certification), Github, Trello, Slack, Qt, Google Docs, Google Sheets

Programming: Python, C#, C++, MATLAB, Markdown, Mermaid

Professional: Customer Service, quick learner, punctual, interpersonal communication skills, willingness to learn

Management: Project management, employee training, task prioritization
